Project Purpose

The purpose of the XZES40-Transformer is:

- ▶ Transform XML and XSLT documents into a new XML document.
- ▶ The XZES40-transformer can transform multiple documents in parallel.

Project Status

The project status of the XZES40-Transformer is:

- ▶ We finish the basic transformer function for the XZES40-Transformer.
- ▶ We are slow than the schedule that we made.
- ▶ We want have team meet weekly to complete project.

Remaining Tasks

- ▶ lu : parallel document transformation, Linux package.
- ▶ Elijah: Daemon, CGI script, Command-Line, FreeBSD package.
- ▶ Shuai : Cache function, Web interface, Windows package.

Problems Encountered

We have following problem so far:

- ▶ Program has aforementioned unqualified-id compilation error.
- ▶ Team are slow than schedule.

Interesting Code
